AUGUST RECORD MONTH FOR U. S. ARMY RECRUITING

The local recruiting station at 624 King street reports that there were 19,681 enlistments for the army during August, a large percentage of which were for allocated regiments in the various States. This allocated arrangement provides that certain regiments are recruited exclusively from local territory. Each State has two or more regiments allocated to it which are composed for the most part, of natives of that particular State. The Virginia regiments are the 62nd Infantry, the 12th cavalry and the 19th field artillery, now stationed at Camp Lee, Fort Myer and Camp Bragg, respectively. The 5th engineers are also a part of Virginia's allocation.

A Chicago millionaire named Bentley, recently took his son to an Army Recruiting Office for enlistment, says "The Come-Back" a U. S. Army Hospital publication, and made the following remark: "I'd rather have my son enlist for three years in the army than attend any college in the country for the same period." Young Bentley is now attending school at Camp Grant, Ill. Since the advent of the vocational training schools many such instances occur, and, as the people begin to realize what the army set out to do for the young men of the country in the way of education etc., such things will be of frequent occurrence.

Applications for victory medals will be promptly made at the local station.

The War Department is anxious to issue these ar rapidly as possible and the applications are slow coming in. Medal can be obtained within five days thru the local office. It is necessary to have your discharge certificate with you when you apply.

Group of 150 Socialists Wants Nation-Wide Revolution Proclaimed.

Milan, Italy, Sept. 11.—The general confederation of labor in session here todayy ordered a progressive occupation of all factoris following the failure of negotiations with the masters of the iron industry. At the meeting a group of 150 Socialists was for proclaiming a nation-wide revolution. No action was taken on the demand, and it is not likely that a decision will be made before Sunday, when Premier Giolitti returns from the conference with the French Premier at Aix-les-Bains.

The confederation made plain today that prior to the slightest recession of the pogram of the workers, the masters will have to outline the policy they intend to follow. The workers will not give up the seized factories pending negotiations.

All of the labor chiefs in the occupied factories have been instructed to prepare detailed lists as to stock held, raw material on hand, the amount of finished products available, etc.

New York, Sept. 11.—Charging that capital is engaged in a vast conspiracy to "coerce and intimidate labor" and force reduction of wages Samuel Gompers, president of the American Federation of Labor, declared here last night that the trade unions must present a "united front" and put aside petty jealousies.

To Loan $100,000

Reorganization Committee's Conditions Give Control of Railroad to Noteholders

Further details of the plan suggested by the noteholders' committee for reorganizing the Washington-Virginia Railway Company and detailed information as to the company's financial needs, are contained in circulars sent to stockholders yesterday by Norman Grey, president.

The committee promises to advance the company $100,000, and to discount a promissory note for $75,000, said note to be signed by four of the company's directors, and the proceeds of which shall be used to take up $4,000 of class A notes of the company, provided certain conditions are complied with. These conditions would give the committee control of the railroad.

The committee proposes that the board of directors shall be increased from seven to nine, and that it shall name five of these directors. It is proposed, further, that Howard S. Graham, chairman of the committee, shall succeed Norman Grey as president, Mr. Grey becoming a vice president, and that the committee shall also name a secretary and treasurer, and other officers and employes.

Another important stipulation made by the committee is that 90 per cent of the outstanding capital stock of the company shall be deposited with the Guarantee Trust and Safe Deposit Company, of Philadelphia, under the terms of an option agreement. Under the option agreement the committee would have the right, within two years from the date of the agreement to purchase the entire amount of stock deposited at the rate of $10 a share for the preferred stock and $2.50 a share for the common stock. The agreement also provides that the depositary shall vote the deposited stock from time to time as the committee may direct.

The agreement stipulates that the stock must be deposited before September 24, 1920.

COLEMAN URGES DETOUR OF CHAPPAWAMSIC SWAMP

The office of State Highway Commissioner Coleman announced yesterday that the fill through Chappawamsic Swamp, in Stafford and Prince William Counties, a link in the Richmond-Washington highway, is still in such condition as to warrant tourists in proceeding over other routes between the two cities. Traffic may now, with cautious driving, proceed unaided over the fill, though there is said to be an element of danger in the operation.

The roadway over the fill is now in course of construction and will be bad for some time, it was explained at the department. For this reason and to safeguard against long delays and possible accidents, all tourists are urged by the department not to attempt to negotiate the fill, pending further notice from the commissioner.

It was pointed out at the department that there is a fairly good road from Washington to Richmond via Chain Bridge, Fairfax, Warrenton, Bealeton, Hartwood and back to Fredericksburg.

ALL MINERS IDLE STRIKERS' DEFI

Anthracite Insurgents For Fight to Finish With President

QUIT IN THREE DAYS

Scale Committee Chairmen Expected to Call Meeting Shortly—Union Officials Maintain Silence

Scranton, Pa., Sept. 11.—Within three days every anthracite mine worker will be on "vacation," according to leaders of the vacation movement. This action, they say, will be the miners' answer to President Wilson's refusal to reopen the award of the Anthracite Commission, which failed to satisfy the workers.

Enoch Williams, chairman of the joint grievance committee of the Delaware, Lackawanna and Western Coal Company, and also leader of the insurgents in the Scranton district, said that the refusal of the President to reopen the case will result in one of the hardest fought industrial struggles ever waged in the country.

"Men who have been remaining at work have been doing so in the belief that the President would reopen the case and make it possible for the anthracite mineworkers to be granted concessions similar to those won by the bituminous workers," he said.

"The lines are now firmly drawn, and the mineworkers who continued to work under the award as handed down by the majority members of the commission is not true to himself, the union or his family.

"There are more men out today in the Scranton district than ever, and I expect that the whole industry will be tied up in the district by tomorrow or Monday," he concluded.

Officers of the union in this district will not discuss the President's action, explaining that Phil Murray, of the union, chairman of the general scale committee of the anthracite workers, probably will call a meeting within a few days to receive the answer of President Wilson.

The entertainment committee of the local post of the American Legion is arranging for a dance in the Elks' auditorium on Friday evening, September 24. This will be the first of a series of dances for the approaching season.

PULLING THE WOOL.

The American Woolen Company's advertisement of the reopening of its mills with its explanation of why they were closed, gives support to the widespread criticism of its suspension of operations early in last July.

That criticism was that the company had shut down to prevent any recession of the high prices of its goods, he demand at those prices was falling off. Merchants began to mark down clothing in order to sell it and to cancel orders for future deliveries at the range of prices that had prevailed. The American Woolen Company, which practically controls its field in this country, refused to sell its goods at any reduction of the old prices. Rather than do that it locked its doors, quit work and settled down to wait till the market should come back to its terms. That this was its real motive is shown in its advertisement inviting the prompt purchase of its goods, which it again places on sale today.

It says in that advertisement that its aim in shutting down was "steadiness in prices and fair values for its goods, for its wool purchased" (not the wool sold by the grower) "and for its labor employed." What were the prices whose steadiness must be maintained, and what were the fair values that must maintain them? These questions are answered the prices whose steadiness "The prices of wool and woolen goods," it says, "were at the highest seen since this company was organized." They were the peak prices, higher even than the war prices, and they must be kept at the peak, or the American Woolen Company would have no goods for sale. That was precisely The Courier-Journal's criticism of the company's course at the time it closed its mills.

As to the fair value of the labor employed, the company shows that it had just made another increase of 15 per cent in wages and says that it believes in **"the highest wages that expenditure by wage-earners themselves will justify."** If the public is unwilling to pay enough for clothes to enable the company to keep up forever that standard of prices and wages then the public may go naked, so far as the American Woolen Company is concerned.

The company says the slacking demand for its goods was due to the indictments for profiteering obtained against it by the Government, the trade accepting these indictments as notice that prices of woolen cloth must be reduced. There may be something in that. It is a fact, however, that the market was materially slacking before these indictments were found. The people had wearied of paying peak prices for clothing and had begun to stop buying. The popular rebellion against the American Woolen Company's gouge was well on before the indictments were found.

That it was a gouge is apparent not only from the proof which the Government collected but from the company's own showing. According to its latest report the corporation has increased its [illegible] more than 300 per cent the last four years and its common stock earnings more than 330 per cent; while its common stock earnings above all taxes and charges last year were nearly 40 per cent even after the payment of the fabulous salaries and commissions allowed its president by its many mills.

THE RESTORATION OF KING ALCOHOL

The deposed monarch may find a new throne. Instead of passing from the picture with the advent of prohibition, alcohol is, in all likelihood to be placed upon a public pedestal. The scarcity of crude oil is beginning to cause serious doubts concerning the future supply of gasoline. American chemists in looking for a suitable substitute have come to believe that ethyl alcohol extracted from wood waste will solve the problem.

In view of this fact the Forest Products Laboratory at Madison, Wisconsin, has recently been making some very interesting experiments to improve the quality of the liquid. Its plans along this line are to conserve the timber wastes of the country even to the point of saving sawdust. Th process consists essentially in converting portions of the wood into fermentable sugars, fermenting these into alcohol and then distilling and rectifying the crude product.—in MoToR for September.

The plan of the Pennsylvania Railroad to supplant men at grade crossings with women is open to objection. The cannon ball express may pass while the watchwoman is smashing the wouldbe masher who has stopped his macine on the track.

That the man who died in the municipal lodging house in New York leaving $125,000 left that fortune was due to his not being vain enough to pay $10 a day to write to friends upon the stationery of the best New York hotels.

PAUL REVERE, IN FLIVVER, WARNED OF DRY RAID

Camden, N. J. Sept. 11.—Camden, during the booze raids of Thursday night, had a modern Paul Revere. In a rackety flivver this worthy emulated his Revolutionary prototype by dashing from saloon to saloon warning of the raids.

"Once we nearly had him," said County Prosecutor Wolverton, "but his luck was as good and he got away."

But another tipster did not fare as well. He called a saloon on the telephone and Detective John Painter answered.

"That you, Bill?" he shouted, adding "it doesn't sound like you," when Painter answered.

Then he continued: "Get rid of your booze; there are a hundred agents raiding everywhere."

"Who is this," demanded Painter.

"So and so" was the reply.

"So and so" is a Camden Water Bureau employee.

KNIGHTS CLOSE EUROPEAN TOUR

Paris, Sept. 11.—After a day filled with visits to various notables in Paris, the European tour of the Knights of Columbus officially ended last night with a banquet in the Palais D'Orsay Hotel given by Andrae Lefeevre the French minister of war and Hugh C. Wallace, the American Ambassador.

A most cordial reception has been tendered the knights throughout their stay in France by the highest dignitaries of the republic and the press has been filled with columns concerning them.

This morning they were received by Marshal Joffre and visited the tomb of Lafayette. This afternoon they were greeted by municipal authorities of the city of Paris and later of Gen. Lyautey.

The Echo de Paris, commenting on the visit of the knights yesterday to Versailles whither they were invited by Landry Andre Tardieu, minister of marine, and Madame Millerand, to whom supreme knight Flaherty presented a magnificent bouquet of roses says:

One of the men arrested gives the name of Charles Ray alias Rupert Reens, of Cornelia. The other two are strangers in this vicinity and their names are withheld.

FORGOT SHE WED

Pretty Waitress Tells Court at Bigamy Hearing

Norfolk, Va., Sept. 11.—She didn't know she was married a second time until she woke up and read about it the next morning.

That's the story Vera Jones, a pretty Norfolk waitress, told Judge Sargent in Corporation Court yesterday. Vera is charged with having two husbands.

The judge sentenced her to serve three years in the State penitentiary.

Vera's first matrimonial venture lasted almost a whole day, she told the court. She married Daniel Jones in Elizabeth City, N. C., in February, 1918. She left him the following morning.

Her second marriage took place in Portsmouth, in June, she testified. She told the court that she had been dabbling in the flowing bowl when she promised to love, honor and obey George Shepherd, a sailor. George, she claimed, also had been "dabbling." Neither George or Vera remembered who the minister was that married them.

GRAND JURY PROBING THE CHICAGO BALL SCANDAL

Chicago, Sept. 11.—Subpoenas for all members of the Chicago National League baseball club to appear before a grand jury in connection with charges of gambling in baseball, which were ordered issued today, are being held up, it was learned last night.

The Chicago team, now playing in the East, does not return home for more than two weeks, and consequently it is possible only a few players may be called at the present time, it was said.

The grand jury which is investigating the alleged gambling will convene Monday, and immediately will call President Veeck, of the Chicago club, and other league officials, it was said.

Besides looking into the charges that a recent game between the Chicago and Philadelphia teams was "fixed" for Philadelphia to win, the jury has been charged by Judge Charles A. McDonald with investigating every form of baseball gambling in the city.

6 Months-Old Baby Keeps Woman From Penitentiary

Jefferson City, Mo., Sept. 11.—Mrs. Margaret Burington, convicted in a Federal court in Wisconsin of having used the mails to defraud, and sentenced to three years' imprisonment, was refused admission to the Missouri State Penitentiary because she had a six-months-old baby with her.

Under the terms of the Federal commitment Mrs. Burington was to take the baby to prison with her and keep it for six months, after which the baby was to be in the custody of its father six months. It was to alternate for six months period between mother and father until the expiration of Mrs. Burington's sentence.

The Missouri law, however, does not permit incarceration of children in the State prison.

The United States deputy marshal who was directed to return to Wisconsin with his prisoner and inform the Federal court the baby could not be admitted to the Missouri prison, left today with Mrs. Burington and her baby.

Cooperation Between Employer and Employees Is Necessary If Both Would Be Truly Successful!

Now is the time for the forward look, for the commencement of a movement that will work out for a closer relationship between the man who has work to offer and the man who wishes the work. The closer that this relationship is between them and the more that each endeavors to co-operate with the other, placing his dependence upon the success of both. Employers and workers are engaged in common cause. Each should have the ambition of reaching the highest pinnacle of success and should appreciate their dependence upon the other. The closer they work together, that much easier will they reach the goal toward which they are striving.

The Man Who Offers Employment and Those Who Accept Same Have A Responsibility Towards Each Other and Which They Must Assume

It's Team Work That Counts

Business could not exist without labor. Labor could not exist without business. One is dependant upon the other. The interests of all depend that business and labor should co-operate in order to be successful.

When employment is offered, persons accepting same have a right to consider that certain considerations are their due. The employer, actually and tentatively agrees to certain things and which must be carried out. A successful business man, in any line, will not tender employment unless he knows that the conditions offered will be met. The responsibilities of the employer are great and unless he recognizes them and endeavors to fulfill them in every detail, it is impossible for him to be successful from the fact that he cannot hire or retain help as soon as it is known that he is irresponsible and indifferent to the just claims his employees may have upon him.

Give Consideration to Matter

The sincere man who will consider the points brought out in this announcement can not help but admit the need of co-operation that exists today between all classes and the beneficial results when it is recognized.

The Claims of the Employees Are Not Any Greater Than That of the Man Who Furnishes Employment. It Is As Binding and Should Be Recognized As Such By Every Wage Earner

A great deal of the misunderstandings that arise between employers and workers is due to the failure of each to recognize the rights of the other. While a portion of the difficulties that come up can be traced to unfairness of the employers, there can be no question but what a great deal of the trouble is traceable directly to employees acting unfairly towards those by whom they are employed. Perhaps not in the strict sense of right and wrong. But more particularly as to their failure in co-operating and in working for the interest of those by whom they are employed. Men who work for a wage are responsible to a great extent for the success and growth of the business. They should realize that carelessness, lack of interest, indifference as to quality and quantity of the work performed lessens the profits of the business, increases the cost of operation and prevents its expansion. All of which directly works against the interests of the men who are employed and thus creates conditions that tend to promote unrest and dissatisfaction against the employer who is in no way responsible. If men will take an interest in their work, endeavor to make a quality production, in as large a measure as possible, they will usually find that they will receive a wage satisfactory and under working conditions that will also be all that they can desire. The restlessness of men in these days, due to reports of big wages in other places is responsible for a spirit of unrest. They hear of how much money can be made in other places but which if traced down would prove to be a myth or that working conditions are so poor and requirements are so great that the hardships in connection with the work in other places more than counteracts the larger wage. The man who has a good job, is steady, reliable and has the interest of his employers at heart, will not need to complain. His work will be appreciated, he will be advanced and his wage will always be in a just proportion to that service which he renders his employer. Co-operation is essential on the part of both. The more that it is known and recognized, the greater will be the success of those who are employing men as well as will the success be greater of those who are employed.

It is perfectly right and just for every man to wish to make his labors produce for him as large a wage as possible. A man will never get along who becomes discontented and starts running about, working only a few days on a job and then leaving for some other place where he imagines he is going to better himself. It is the man who sticks to his job, and who works at all time to make his work productive, who succeeds. Whether you are employer or employee, consider carefully this relationship that must exist between men if they would be successful.

Don't Quit Your Job!

Don't let outside influences cause you to quit your job. If there is dissatisfaction regarding working conditions, your wage scale or for many other cause, see your employer, talk it over with him. You'll find him ready to help you in every way. He is interested in you and will gladly do all he justly can to promote your comfort and interests in every way and to make you contented.

POTOMAC DIVISION, AMERICAN RED CROSS PLANS IMPORTANT MEETINGS

Eight Strategic Cities Selected For The 190 Chapters in Maryland, Virginia and West Virginia To Hold Group Conferences---Peace Time Program To Be Outlined and Discussed

LOCAL MEMBERS INVITED

For the purpose of bringing together chapter delegates and division directors with a view to a general presentation and discussion of all activities now being carried on in accordance with its peace time program, the most important series of group conferences, since the war, will be held by the Potomac Division, American Red Cross, beginning September 15th, and ending October 1st. Eight strategic cities in the Division, which comprises Virginia, West Virginia, Maryland and the District of Columbia, have been chosen for the meetings and are so located as to make it possible for Red Cross chapters to send delegates without necessitating a long and expensive trip from home.

The eighth conference will be held at Washington, September 30th and October 1st, and the chapters from the following counties have been requested to send delegates: Albemarle, Arlington (including Alexandria city and Arlington Co. Chapters), Clarke, Culpeper, Essex, Fairfax (Fairfax Court House and Falls Church Chaps.), Fauquier, Frederick (including Winchester and Frederick Co.), Greene, King George, Lancaster, Loudoun, Madison, Northumberland, Orange, Prince William, Rappahannock, Richmond, Shenandoah, Warren, Westmoreland (Westmoreland Co. and Cople Chap.) in Virginia: Berkeley, Jefferson and Morgan in West Virginia, and Calvert, Charles (Charles Co. and Indian Head Chaps.), Montgomery, and St. Mary's in Maryland; and the District of Columbia.

National, divisional and chapter officials, particularly chosen for the presentation of that phase of Red Cross work with which they have been closely identified, will act as speakers on the daily program. The national officials will outline the peace time program of the great relief organization, the divisional directors will give definite reports of what has been accomplished through their respective departments and the chapter authorities will tell how this work has been applied in the case of their local communities and the benefit derived therefrom.

Plans and arrangements for the Fourth Red Cross Roll Call, which is to be held from Armistice Day to Thanksgiving Day, November 11-25, will also be discussed.

The Red Cross chapter in each conference city will make all arrangements for the comfort of out of town visitors such as hotel or boarding house accommodations.

MR. DAVID H. BROWN

All chapter and branch officials and all those in each community, who are interested in the welfare and future of the American Red Cross are invited to attend the conference. Each delegate is expected to defray all personal expenses.

In carrying out its peace time program, the American Red Cross is reorganizing its gigantic war period machine to battle disease and disaster. To that end, it is establishing health centers throughout the United States, co-operating with health agencies in a community where such agencies are already at work, or where such agencies do not exist it is taking the initiative, with the consent of the citizens, in inaugurating a public health service. Disaster preparedness committees are being formed in every active chapter throughout the country so that in the event of a catastrophe by earthquake, fire, flood, tornado, explosion or other dire affliction the inhabitants can be given immediate relief. Nor are the wounded and sick in the military hospitals and camps forgotten by the Red Cross; it is still ministering unto their comfort and welfare. Home service and civilian relief is also being continued on a large scale among the families of these men.

David H. Brown, Associate Manager of the Potomac Division, probably the best known Red Cross official in the division territory, has been appointed director of the Fourth Red Cross Roll Call and it is under his supervision that the eight group conferences are being arranged in accordance with plans as outlined. He will be one of the speakers at this conference.

Mr. Brown entered the Red Cross service as a volunteer campaign secretary of the Richmond, Va. chapter from May 1 to July 1, 1917, on which latter date he was employed as state secretary of the Virginia Red Cross, occupying that position until October 1 when Virginia was merged with the other states forming the Potomac Division. He was then called to Washington by Hon. Henry White, former ambassador to France, who was division manager, to serve as director of the department of development. In December, 1918, he was appointed associate manager to Col. William Cary Sanger and on March 1, 1919, as acting manager. In May of that year he broke down in health and was given a three months' leave of absence, resuming his duties as acting manager, September 1. On February 9 of this year he was made associate manager of the division.

MR. THOMAS DeC. RUTH

Mr. Brown has been a special adviser in all membership and financial campaigns since the division was formed. Before joining the Red Cross he was identified with the Laymen's Missionary Movement, Men and Religion Forward Movement; World in Batimore Missionary Exposition, Protestant Episcopal Church Pension fund campaign in the diocese of Southern Virginia. He is well known throughout Virginia and Maryland for his great success in putting many churches on a sound financial basis through the introduction of the "Every Member" canvass and church efficiency methods.

Thomas DeC. Ruth, manager of the Potomac Division, will also be among the speakers at this conference. He was educated in the public and private schools of Baltimore and received the degrees of A. B. and Ph. D. from Johns Hopkins University. Upon graduating from the university he became Master in Latin at the Gilman Country School for Boys in Baltimore, 1909-1910. Later he was instructor in Classics at Princeton from 1912-1915, was lecturer in Latin at Bryn Mawr College, 1916-1917, and Headmaster at St. Paul's School for Boys in Baltimore from 1917 until April, 1918. In the spring of that year Mr. Ruth was commissioned as a first lieutenant in the army and assigned to duty with the Military Intelligence Division of the General Staff being successively

DR. PAUL B. JOHNSON

promoted to captain and major before his discharge on October 1, 1919. He was appointed manager of the Division in February of this year.

KILLS WIFE AT BABY'S CRIB

World War Veteran Then Ends Own Life

Elizabeth, N. J., Sept. 11.—As she was standing over her seven-month-old baby who was cooing in its cradle, Mrs. Elizabeth Gertrude Parry, 22 years old, was shot dead today by her husband, George Parry, who then committed suicide. Despondency over his condition is ascribed by the police as the cause. Parry was a veteran of the World War and suffered for months from the effects of shell shock and gas.

County Physician Westcott will perform an autopsy to ascertain the exact condition of Parry's brain.

Parry rose this morning rather late and went out for a walk. When he returned his wife was in the kitchen talking to the baby. Neighbors say that Parry must have shot almost immediately upon entering, for a report was heard as soon as he had gone into the house. A second shot was heard a few seconds later. Mrs. Parry was found lifeless beside the crib, her baby crying. Upstairs Parry's body was found. He, too, was dead. A bullet had penetrated his brain.

3,000,000 HAVE PAID TAXES ON INCOMES FOR THIS YEAR

Washington, Sept. 11.—More than 5,600,000 firms and individuals are paying income taxes this year, according to figures made public last night by the Bureau of Internal Revenue. These figures also reveal that virtually 3,000,000 taxpayers have already paid their income taxes in full.

The bureau's statement shows that 4,900,000 persons are paying income taxes on incomes of $5,000 or less and that fewer than 600,000 of this number have not paid their taxes in full, choosing the alternative method of payment by installments. Individual returns for incomes in excess of $5,000, including those individuals and firms, numbering 700,000. Approximately half of this number have paid all income taxes to the Government in the first two tax installments, the bureau figures show.

Nearly 350,000 corporations have filed income tax returns, but only 65,000 have paid their taxes in full.

Commissioner Williams also called attention that the third installment of income and profit taxes comes on September 15.

1,500,000 IDLE IN GOTHAM BECAUSE OF STRIKES

New York, Sept. 11.—Five hundred and ninety-five concerns, employing normally 1,500,000 men, and not including the Brooklyn Rapid Transit Company, are not operating in New York city because of strikes.

Four hundred of the existing strikes are listed as in the "needle" trades, including furriers, ladies' garment workers and textile workers. Half of the unemployed are grouped in this division.

In addition to these, waiters, hotel help, longshoremen, waterfront workers, shipyard workers, iron and steel men and even salesmen are out. And, beyond all this, innumerable other businesses are suffering through their connection with the trades now disorganized by labor troubles.

Carnival of Death Planned in Moscow; Seek New Tortures

Paris, Sept. 11.—Contrary to assurances of socialist investigators that Lenine and Trotzky have abandoned the death penalty, the Stockholm correspondent of the Gazette Rouge says brutalism is more predominant than ever.

Not only have the courts been told to kill offenders for the slightest disobediance of soviet principles, but orders have been made retroative rendering several thousand now in prison liable to execuion if the judges accept Moscow's invitation to "have a holiday of savagery and celebrate the inability of the Poles to crush the Russian proletariat."

D. Jerejaiansky has been appointed commissioner extraordinary to devise new tortures.

KRAMER SAYS NEW YORK HAS 1,000 DRINK OASES

Washington, Sept. 11.—Any initiated person can obtain a drink more or less openly in any one of a thousand places in New York. Appriximately one-tenth of the drinking places in the ten biggest cities are doing business. About 50,000,000 gallons of whisky are stored in 350 (bond) warehouses in various sections of the country, and it is being smuggled out and sold in spite of all that government officials can do to prevent it.

New York, Chicago, Baltimore and Philadelphia are wet cities. Accusations of bribery, graft and general dishonesty have been so general that not a government agent is free from suspicion, although by far the vast majority are innocent.

This startling condition of affairs was revealed by Prohibition Commissioner Kramer here today.

GRAPES USED FOR BREAD.

Process Kills Alcohol And Hope For "Booze" Sandwiches.

Washington, Sept. 11.—Added sadness has been brought to life with prohibition by the discovery of new uses for wine grapes. A lingering hope prevailed that rather than permit the grapes to waste they might be returned to their former utilization.

A stirring announcer for the Fifteenth International Congress Against Alcoholism tonight declares that Dr. Eudo Monti, of Turin, has discovered many new uses for the Italian wine grape." He also is perfecting a plan whereby the extract of the grape may be used in the preparation of bread. Those who had hoped for booze sandwiches will be disappointed because the process kills the alcohol.

"It is stated authoritatively," says the cheerful announcer, that Dr. Monti's discoveries have already revolutionized the viticulture of France and Italy as they allow prohibition without any harm to the economical interests of these great wine-growing countries."

MOVIES

WILLIAM S. HART'S BEST

A great story perfectly produced as a motion picture, is the "The Toll Gate" shown last night at the Richmond. The picture builds consistently toward one great situation and the cumulative effect is powerful and convincing; it is human and in the end develops the finest thing in a man's heart—self-sacrifice; it has been produced with the greatest care and attention to detail; the scienic background is effective and at times highly beautiful. It will be repeated again tonight.

High School Boy of 13
Will Enter Harvard.

Wapwallopen, Pa., Sept. 11.—Frederick Santee aged 13 son of Dr. and Mrs. Santee of this place, has matriculated for the regular course in Harvard University and will go there within the next few days to take up his studies. Information from Cambridge is to the effect that the boy is the first one to enter at that age as a candidate for a degree. On one other occasion was there a boy of that age entered, but h was a studnt in a special mathematics course.

The boy had been unusual since his first day in school, and has been able to read foreign languages almost without study ever since he was six years old.

Frederick graduated from Philadelphia High School last June as one of the honor students and since that time has been at his home here, with the exception of several days passed in New ork taking the entrance examinations. There was some doubt at first whether he would be permitted to enter Harvard and he decided to go to Princeton, but his original plans have been carried out.

AN ALEXANDRIA INTERVIEW

Mrs. Nalls Tells Her Experience.

The following brief account of an interview with an Alexandria woman four years ago, and its equal, will be read with keen interest by every citizen.

Mrs. L. C. Nalls, 911 Duke St., Alexandria, says: "I could hardly get around the house my back was so weak and sore, and when I got down it was almost impossible to straighten up again. I couldn't rest at night and mornings I felt so weak and tired all over it was all I could do to dress. My kidneys acted irregularly and caused me a great deal of misery. My head ached a great deal; It was a dull, steady pain. I got Doan's Kidney Pills at Summer's Drug Store and the first box did me so much good I used another. My back stopped aching and my kidneys haven't caused me any trouble since.

Mrs. Nalls gave the above statement on April 10, 1915 and on March 15, 1919 she added: "I was pretty bad off with kidney trouble and nothing helped me the way Doan's Kidney Pills did. Doan's are the best kidney remedy I know of."
